

# Solar Team 6 Application, due by January 1, 2023

If you are one of the ten applicants chosen for this program, you will receive a 200watt solar system that will power lights, charge devices, and run low wattage AC appliances. **A small DC refrigerator is included.**

The system must be installed in an indigenous home without electricity. It can be your home or the home of an indigenous person who can benefit from this very basic system. **Preference will be given to persons with medications requiring refrigeration.**

You will receive training to understand, install and maintain the system safely. Completion of the course is required. Missed classes must be made up.

**CLASSES:**The course consists of six classes by conference call. Classes are every other Wednesday at 6pm starting January 25 through April 5.

The classes are online at [gallupsolar.org](http://gallupsolar.org), or we can loan you a tablet for home study. For the bi-weekly call you will need to a good cell signal, landline or internet connection. You must complete quizzes and prepare questions ahead of time to insure your full understanding of each class.

**HANDS ON:** After the sixth class, **April 5**, you will receive 'hands on' system training & how to do the installation by appointment in Gallup.

**INSTALLATION:** You will be paired with an experienced graduate from another team for the installation. If you are not the recipient, you will teach the recipient how everything works and be available for follow up maintenance as needed. It's best if location is easy for you to get to..

**PRESENTATION:** A final report with photos and/or video must be submitted when you have completed the installation.

**GRADUATION:** You will be given a certificate of completion by Gallup Solar. You may decide to become a Solar Tech Installer or even start your own business.

**To apply please supply the information requested below:**

1. Your name: \_\_\_\_\_
2. Age: \_\_\_\_\_
3. Email address: \_\_\_\_\_
4. Phone number: \_\_\_\_\_
5. Tribal affiliation: \_\_\_\_\_
6. Languages spoken: \_\_\_\_\_
7. Your mailing address: \_\_\_\_\_
8. Your Chapter affiliation: \_\_\_\_\_

**Describe your work experience, skills & current employment status:**

**If you are donating the system, who are you giving it to?**

1. Name of recipient: \_\_\_\_\_

2. Chapter affiliation of recipient: \_\_\_\_\_

**VERY IMPORTANT! EXPLAIN IN DETAIL HOW THE SOLAR SYSTEM WILL BENEFIT YOU OR THE RECIPIENT:**

## **HOW TO SUBMIT YOUR APPLICATION DUE JANUARY 1, 2023**

You can edit the word document in an email and send to [gallupsolar@gmail.com](mailto:gallupsolar@gmail.com) by January 1, 2023. Or print out the PDF and deliver or mail to Gallup Solar 113 East Logan, Gallup, NM 87301.

**Call Bill Bright 505-728-9246 with any questions.** When we receive your application we will call you. At that time you will also be able to clarify everything.

**Announcement of the winners will be January 13.**
